## To be filled out by Reviewer – not by Applicant

## NEW HAMPSHIRE DEPARTMENT OF EDUCATION CHARTER SCHOOL EVALUATION SCORING GUIDE FOR PROPOSED CHARTER SCHOOL APPLICATIONS

**Application requirements:** No greater than 50 pages (excluding cover letter and appendices) and at least 11-point font. Applications must include a table of contents with corresponding page numbers.

The evaluation scoring guide provides the application reviewers with a means of determining the quality of the charter school application. It may also be used by charter school developers to guide writing their application, along with the Charter School Application Guidelines used for the legal review conducted by an Attorney. Application reviewers shall objectively review the application using the following scoring criteria, based on a 100-point scale:

	NAM	IE OF PROPOSED CH	HARTER SC	HOOL:

One of the major tasks to opening a public charter school is finding a suitable facility. It is not required to have a formal facility agreement during the application process; however, viable options should be explained to include a target location, reasonable plan for space requirements and assurance that the school facility will be adequate for the projected student enrollment and future growth.  Criterion #3 A description of the school facility is provided and includes sufficient detail to indicate that priorities will focus on a facility that is appropriate based on the target location, students to be served, and future growth.  Comments:  Supporting factors can be found on page(s):  Maximum Score 8 Rating  Topic – Curriculum  A charter school application should include a description of the school's educational program, student performance standards and curriculum that meets or exceeds content area standards that will enable each student to achieve academic success. Current research for selecting a particular curriculum should be included in the application.  Criterion #4 A clearly defined, research-based curriculum is being proposed with the potential to increase student achievement, and that is aligned with the New Hampshire Curriculum Frameworks/Common Core State Standards.  Comments:  Supporting factors can be found on page(s):  Maximum Score 8 Rating 8 Rating 9 Rati
